

Fundamentals Table of Contents

Section 1: The ERDAS IMAGINE Viewer

Exercise 1: Understanding Imagery	13
Challenge 1: Using the In-view Magnifier	27
Exercise 2: Import and Rectification	31
Exercise 2: Viewing Other Data Types	47
Exercise 2: Examining Raster Attributes	55
Challenge 2: Adding Hyperlinks	61
Exercise 2: Examining Vector Attributes	65
Exercise 2: Creating Presentations	71

Section 2: Visualizing Your Data

Exercise 1: Displaying and Examining a Specific Area	77
Challenge 1: Using Profile Tools to Examine Topography	83
Exercise 2: Processing Multiple Files	89
Challenge 2: Reprojecting Your Images	95
Exercise 2: Viewing in 3 Dimensions	99

Section 3: Creating Image Maps

Exercise 1: Orthorectification	107
Challenge 1: Organizing Your Images	127
Exercise 2: Stitching Images Together	131
Exercise 2: Color Correction in the Mosaic Tool	143
Challenge 2: Creating Annotation Layers	155
Exercise 2: Creating a Map Composition	163

Section 4: Feature Extraction

Exercise 1: Subsetting an Image	177
Exercise 2: Using Spectral Characteristics	181
Exercise 2: Band Ratioing - Indices	191

Exercise 2: Editing a Personal Geodatabase	195
Challenge 1: Spatial Enhancement	201
Exercise 2: Identifying and Extracting Changes	205

Section 5: GIS Analysis

Exercise 1: Unsupervised Classification	211
Exercise 2: Preparing a Classification for Analysis	221
Challenge 1: Stream Sensitivity with Expert Systems	233
